PHOTOART Workshops with Karen Dolan

Layouts and Book Making
3 or 5 Weeks
15 Hours

Workshop is for photographers who wish to push their creative potential, expand their understanding of digital photography and learn about layouts, printing and book making. Participants will need Adobe Photoshop Lightroom, an understanding of Lightroom's editing and exporting processes and a selection of images.

Karen will review ways to download, select and store images, as well as file handling, importing, sorting, exporting, and, Global and Local Adjustments post processing techniques.

Participants will be introduced to Lightroom's Print and Book modules and learn creative and professional ways to display their photographs.
